

Berrybrook Primary School, Wolverhampton

2,000m² Improvement of the roofs thermal performance

Project Description

Following several reported leaks and due to the age of the existing waterproofing system IKO were chosen to not only replace current roofing but also improved its thermal performance.

Solution

After a thorough visual, intrusive and physical appraisal the Schools roofing structure would be replaced and IKO ALU insulation boards installed within the roofing system to increase the overall thermal performance.

Installation

IKO Systems VCL and Underlay (both self-adhesive) provided a quick and easy solution that, combined with IKO enertherm ALU insulation boards and an IKO Goldseal Cap Sheet improved the roofs thermal performance and created a waterproofing roofing system with a 20 year single point warranty.

Contractors: G Cooper RFG

Product / Systems

- Systems S-A VCL
- Systems S-A Underlay
